## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 10/29/2009 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

### ***Allowable Subject Matter***

Claims 43-55, 57-60, 84-90, 92-93, 96-100, 102 and 128-130 are allowed.

The following is an examiner's statement of reasons for allowance:

In regards to claims 43-55, 57-60, 84-90, 92-93, 96-100 and 102, the prior art of record fails to anticipate or rendered obvious the specific architecture of an input diplexer, divider module, request module, conversion modules and a plurality of combiner modules coupled in the specified manner, as recited in the claims (**note Figure 3 of Applicant's specification for an illustrative example of the architecture specified in the system of claim 84**).

In regards to claims 128-130, see the reasons for allowance of claims 84-90, 92-93, 96-100 and 102 stated above. Further note that the claims are written in a form invoking 112 6th Paragraph, which further requires the Examiner to adhere to the components/structure, specified in Figure 3 of Applicant's specification (**see MPEP 2181 [R-6]**), which correspond to the functionality recited in claim 128.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The Examiner further notes that independent claim 43 now recites the specific architecture claimed in independent claims 84 and 128. Rakib and Laksono fail to recite specific architecture of an input diplexer, divider module, request module, conversion modules and a plurality of combiner modules coupled in the specified manner.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason P. Salce whose telephone number is (571) 272-7301. The examiner can normally be reached on M-F 9am-6pm.
